Professional: Remote Pair-Programming, Teamwork, Mentoring, Code review, Time Management, Cross-cultural.

EXPERIENCE

OUTLIER

Remote

AI Trainer Generalist (Contractor)

Jun 2023 - Present

Evaluate AI-generated responses based on factual accuracy, safety, and adherence to instructions. Analyze prompts and assess the quality of AI outputs and Provide actionable feedback to enhance AI models' reliability.

HIGHLIGHTED PERSONAL PROJECTS

Remote

Full Stack Web Developer

Apr 2023 - Present

[Book a Concert](#) — This project consists of a Single Page Application (SPA) and an API that allows users to book concerts or create independent events for others to book. Users can register, reserve, or create concerts.

- Built with: (HTML5, CSS3, JavaScript, React, Redux, Ruby, Rails and PostgreSQL).

[Budget App](#) — Server Side Rendering Application (SSR) following Model View Controller architecture, that allows users to manage their budget. Users can create an account, add transactions, and create new categories.

- Built with: (HTML5, CSS3, Tailwind-CSS, JavaScript, Ruby, Rails, and PostgreSQL).

MICROVERSE

Remote

Mentor (Volunteer)

Apr 2023 - Nov 2023

- Supported 8 developers with React and Rails app deployment from branches using Render and Github pages and helped to solve assets pipeline issues.
- Guided 5 developers with Git, Gitflow, and merge conflicts providing constructive feedback.

TELEPERFORMANCE

Remote

Bilingual Customer Service Agent

Apr 2022 - Jan 2023

- Supported 6 different brands in less than 6 months demonstrating quick learning skills.
- Resolved unique problems for B2B and B2C clients in hundreds of interactions, maintaining a 98% customer satisfaction rating.

EDUCATION

MICROVERSE

Apr 2023 - Nov 2023

Remote Full Stack Web Development Program, Full-Time

- Completed 40 projects (solo and as part of a team) with JavaScript, React, Redux Ruby, Rails, and PostgreSQL while mastering algorithms and data structures. Some of them were Recipe App, Budget App, and Book a Concert.
- Performed code reviews and remote pair programming using GitHub, and industry-standard git-flow, attended daily standups to communicate and collaborate with international remote developers gaining teamwork experience.

FREECODECAMP

Apr 2021 - Jun 2021

Responsive Web Design

- Spent 300 hours of coursework learning HTML5 and CSS3; built 5 short projects ([Survey](#), [Tribute Page](#), [Technical Documentation Page](#), and [Landing Page](#)) gaining a better understanding of responsive mobile-friendly design.
